PROGRAM AND PROJECT MANAGEMENT

Focus on what's important for the jurisdiction, not the back-office functions. We help you achieve that through our understanding of your operations and our approach for managing quality, schedules, and costs, all of which ensures you get the most value.

SECURITY, BACKUP AND DISASTER RECOVERY

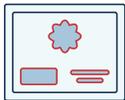

Stay vigilant against threats and be prepared with the right plan to quickly get back online with Avenu's methodology. We safeguard your infrastructure and applications through compliance with all regulations and industry standards.

INFRASTRUCTURE MANAGEMENT

Have the strongest IT foundation possible with Avenu's support. Infrastructure, workflows and applications all come together with the right mix of hardware, software, telephone systems and print services, boosting availability and productivity where you need it most.

HOSTING/CLOUD SERVICES

Keep your IT operations onsite with Avenu behind you. We can maintain and scale legacy systems as needed, or we can migrate them to the cloud to reduce capital costs, increase technology efficiency and remove risk.
