

RevSolutions

Simplified Revenue Management

ONLINE FILE & PAY

RevSolutions provides an easy way to accept online payments from taxpayers and businesses across multiple jurisdictions. It also gives new and renewing businesses a simpler way to file, get confirmation and see their filing history.

REAL-TIME REPORTING

Forecast revenue accurately with real-time data on tax, license and permit fees. Understand your data more readily and communicate it with display and analysis tools in standard management reports or by ad-hoc query.

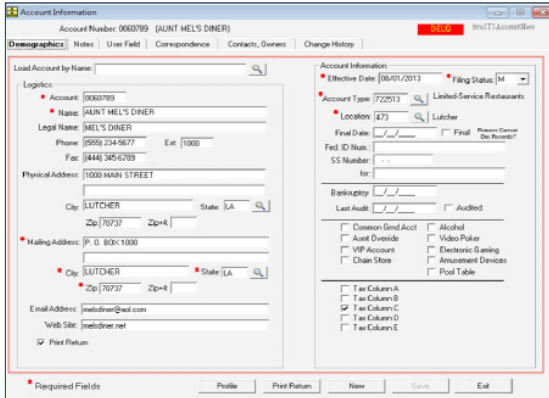

SECURE & FLEXIBLE

Serve your community with confidence knowing your data is secure. Utilize a management system customized to handle even the most complex ordinances.

RevSolutions suite of cloud-based products streamlines tax and license management for local governments.

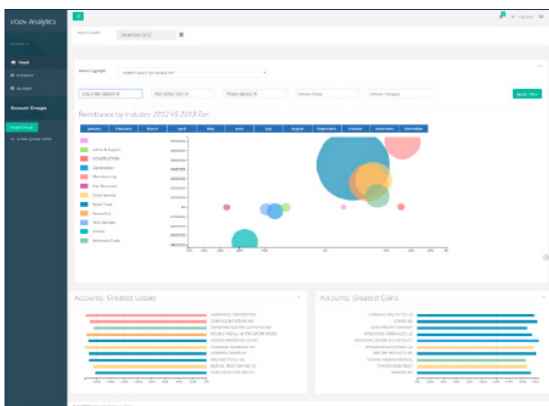

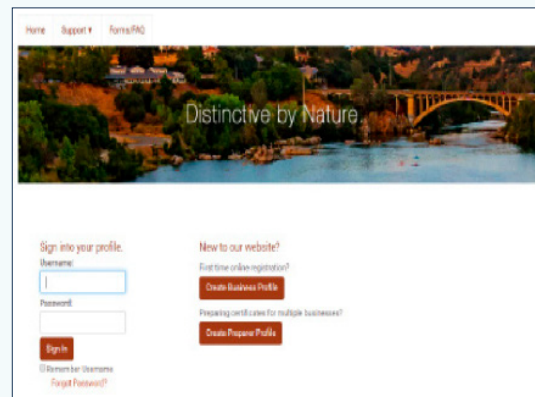

RevCollections

From the beginning, RevCollections has been designed with local governments in mind. Use our flexible and comprehensive solution to manage accounts, payments, and compliance history. Easily process tax and license returns of all types, and compile reports for quick and efficient accounting and reconciliation.

RevPortal

Our cloud-based product, RevPortal, provides a secure file and pay solution to easily collect taxes, licenses, and fees. Increase compliance, improve responsiveness and gain efficiency with our innovative and well-designed websites. All sensitive information is encrypted during transmission and storage.

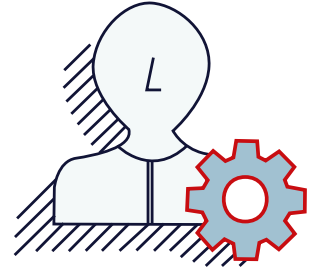

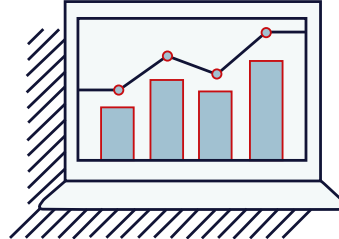

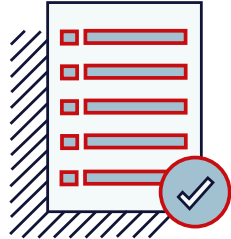

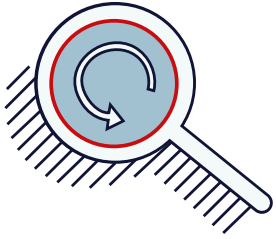

RevAnalytics

RevAnalytics delivers an optimized out-of-the-box solution to analyze, visualize, and understand your data. By using the trend analysis and account comparison features, quickly and easily drill down into your data to identify outliers and inconsistencies.
