

Clearview Jury

BY AVENU INSIGHTS & ANALYTICS

TRANSFORM YOUR JURY MANAGEMENT WITH CLEARVIEW JURY

Jury service is not only a civic responsibility of every citizen—it's also the cornerstone of the judicial system. Yet processing jurors is an arduous effort that can create a huge burden on your Court. Legacy systems and inefficient processes require unnecessary workload for clerks that include manual check-in, information requests, filing paperwork, and submitting payments.

Constituents feel the burden too – from interpreting unfamiliar forms and instructions to the possibility of long hours spent in the courthouse. All of this adds up to delays for the Court and a lower juror turnout.

Clearview Jury is a functionally comprehensive and technologically advanced jury management solution that is designed by jury administrators for jury administrators. Clearview Jury simplifies **juror qualification, summoning, check-in, and juror payment calculations** so your administrators can get back to more important tasks. Our integrated eJuror module gives jurors autonomy in managing their information and service from anywhere. This streamlined process improves the relationship between the Court and its constituents, creating a seamless experience for the juror. It's a win-win for both the Court and the public.

INTEGRATED MODULES

Integration with third-party applications makes your jury administration even more robust.

- Print and mail services
- Integrated voice response
- Jury display systems
- Juror payment cards

TRUSTED EXPERTS

Avenu's team of subject matter and technical experts bring decades of experience to your jurisdiction, ensuring a timely and efficient implementation.

- Functional and technical training & consulting
- Software installation
- Data conversion and data merge
- Maintenance and support
- Remote database administration (optional)

End-to-End Automation for Jury Selection, Summoning, and Payment

A comprehensive, end-to-end solution that ensures efficient and flexible jury management for single, multiple, and statewide implementations. From start to finish, Clearview Jury addresses process inefficiencies each step of the way.

■ MASTER LIST MANAGEMENT

Create a master jury list from multiple sources such as DMV, voter registration, and more.

■ RANDOM SELECTION, POOL CREATION AND QUALIFICATION

Upon random selection from the source list, Clearview Jury groups potential jurors into pools from which voir dire panels are selected.

■ NOTIFICATION

Communicate with jurors by email and text through notifications. Eliminate the need for traditional mail services with custom notification templates.

■ PAYMENT

Have peace of mind knowing payments to jurors are automatically calculated using your defined calculation rules. Set up different payment processes—Clearview Jury is flexible and configurable.

■ ATTENDANCE

Provide versatility for individual courts with Attendance Check-In/Out and Pending Check-In editors. Automatically track a juror's scheduled appearance date and receive automated alerts when a prospective juror checks in when not expected. The Pending Check-In editor and wireless scan gun provide flexibility and security for automatic juror check-in.

■ EJUROR

Improve juror experience and increase participation with the eJuror Web Response system. eJuror allows prospective jurors to virtually communicate directly with the Court. Jurors can access Court information, and deferrals, upload documents for Court review, and more. eJuror is fully integrated into the Clearview Jury system, and updates are done in real time.

From the Experts Trusted by Jurisdictions Nationwide

When state and local governments need support, they turn to Avenu. We support mission-critical government operations with revenue enhancement programs and administration software that's backed by public sector expertise, making it easy to serve citizens reliably, efficiently, and securely.
